

Waterproof RGB LED Strip Light 9.5 foot spool

EL-IMGWPRGBRIB12V

UL #E348280

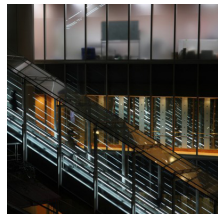

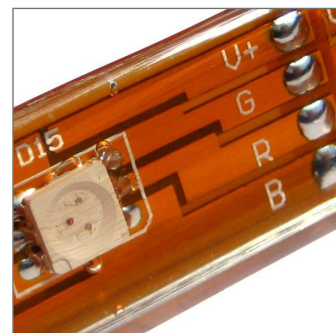

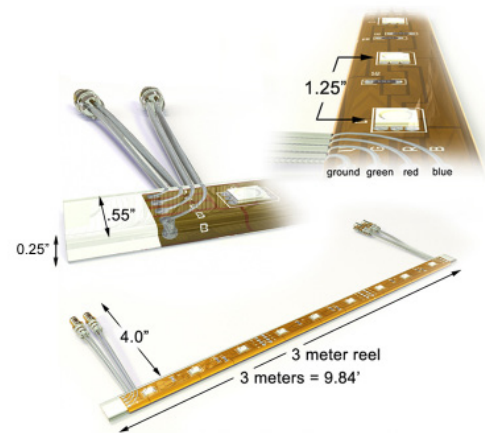

Weight: 9 oz.
 Length: 9.5 ft.
 Width: 0.5 in.
 Height: 0.2 in.
 UV/IR Radiation: None
 Max. Length in one run: 18 ft.

Our RGB Waterproof LED Strip offers a unique, attractive solution for your full-color green LED lighting requirements, at a discount price. This strip is ideal both for indoor and outdoor uses, including home entertainment lighting, garden lights, pools, fountains, tank lighting, accent lighting, and bathroom lighting, as well as edge decoration, small-floodlight use and cove lighting. The Waterproof Color-Changing LED Light is not only impervious to water damage, but curves easily and performs well in temperatures ranging from -4° to 104° F. This Strip uses a surface-mount LED with a wide flood angle, and is seamlessly and evenly bright, so it won't cast annoying shadows.

Waterproof Color-Changing Light strips can also be controlled with one of our low-voltage, Full Color LED Controllers that will give you a wide array of creative lighting options for any situation. Whether blue, red or green light, this multi-color strip light will deliver consistent, fantastic results.

This low-voltage RGB Strip produces little heat, which means you don't have to worry about shock or fire danger. It has a lifespan of over 50,000 hours and, though it lives on a carbon diet, its low wattage translates to lower emissions and a \$3 per-watt operating cost if left on for an entire year.

color	kelvin	voltage	lumens per ft.	IP rating	beam angle	LED type	power consumption per foot	per spool	# of LEDs
RGB	n/a	12V DC	R=11, G=17, B=5	IP65	120°	5050 SMD	2.2W / 180mA	21W / 1.7A	9 per foot
