

Multi-Color RGB LED Flexible Light EZ Connector

EL-RGBSTRPCON

Weight: 0.1 oz.
Length: 4.3 in.
Width (connector): 0.65 in.
Voltage: 12V DC
Number of lead wires: 4

Product Description

Save yourself some time! Let's face it, soldering lead wires to our RGB Flexible LED Lights takes time and can be tedious. We've created this special Multi-Color RGB LED Flexible Light EZ Connector to save you this potentially time-consuming task. Our EZ Connectors a breeze to fit.

Instructions for use:

1. Slide Flexible LED Light into the small LED molex clamp
2. Using care, firmly secure the clamp with the two small brown tabs by squeezing them toward the LED strip.
3. Connect any of our RGB controllers.
