SAFETY & WARNINGS

1. Install in accordance with national and local electrical code regulations.
2. This product is intended to be installed and serviced by a qualified, licensed electrician.
3. Do not submerge, or install within 5 feet of a swimming pool.
4. Do not modify or disassemble this product beyond instructions or this warranty will be void.
5. Not for use in submersible applications.

HANDLE PRODUCT WITH CARE!

DO NOT POWER STRIP LIGHT WHILE ATTACHED TO SPOOL OR TIGHTLY COILED.

DO NOT BEND LED STRIP LIGHT ON A HORIZONTAL PLANE.

DO NOT FOLD, CREASE, OR TWIST LED STRIP LIGHT.

DO NOT COVER STRIP LIGHT WITH ANY MATERIALS.

QUICK SPECS / MODELS

Input: 24VDC Constant Voltage
Power: .29W per foot
Max. Run: 130 feet per controller output
Ambient Temp †: -4° ~ 122°F (-20° ~ 50°C)

* Indicates length
† Do not install product in environment outside listed temperature.

ADDITIONAL ACCESSORIES

Channel Cover
DI-IL-COVER*

**INSTALLATION**

1. **TURN POWER OFF AT CIRCUIT BREAKER**

   ![Shocked symbol] **SHOCK HAZARD!** May result in serious injury or death. Turn power OFF at circuit breaker prior to installation.

2. **DETERMINE LOCATION TO INSTALL COMPONENTS**

   **NOT FOR USE IN SUBMERSIBLE APPLICATIONS, OR WITHIN 5 FEET OF A SWIMMING POOL.** Refer to **SYSTEM DIAGRAMS**

   1) 200W Driver*
   2) Color Controller
   3) STRIP, CHANNEL & COVER

   *Class 2 option available.

3. **CREATE CHANNEL AND COVER LENGTHS**

   **STRAIGHT CUTS**

   Using a saw, cut the Channel and Cover to length.

4. **PLACE DAZZLE® ACCENT CHANNEL**

   **3M ADHESIVE BACK**

   Peel backing from 3M adhesive strip on back of channel.

   **PLACE CHANNEL**

   Allowing 3M adhesive to hold the channel in place, use screws to fasten channel to surface.*

   *Note: Ensure that plenty of space is left between channels when installing around corners. Pinching, or bending Strip Light and/or extension cables may result in damage to the system.
**INSTALLATION (CONT.)**

5. **CREATE STRIP LIGHT LENGTHS**
   - Connect ends of Strip Light together until desired length is reached.*
   - You may mix and match different lengths of Strip Light. Ensure extensions and connector cables are measured and placed optimally throughout the installation.
   - *Note: Do not cut or modify Strip Light.

6. **COMPLETE STRIP LIGHT AND CHANNEL INSTALLATION**

   **PLACE STRIP LIGHT WITHIN RAISED CHANNEL**
   - From one end, place Strip Light within raised channel.

   **SIDE CHANNELS**
   - The lower areas on either side of the channel may be used to place and hide additional wires used for installation.

   **PLACE COVER AND END CAP**
   - Snap covers onto channel. Insert end cap into last channel in system.

7. **ATTACH CONTROLLER AND DRIVER**
   - Verify a compatible driver is installed. Utilize applicable wiring when installing outdoors. *(Use of wet location rated junction box recommended)*

8. **REVIEW SYSTEM**
   - Ensure all polarities are correct and connections are secure.

9. **TURN POWER ON AT CIRCUIT BREAKER**
Some LEDs are not functional
- Ensure strip light has not been bent excessively, which could damage circuitry.
- Ensure strip light has not been submerged in any liquid for any amount of time.

Lights are flickering
- Check for loose connections.

Lights are turning on/off repeatedly
- Ensure driver is not overloaded. An overloaded driver will trip the internal auto-reset (of driver) repeatedly, turning the system on/off.
SYSTEM OPERATION

DAZZLE® ACCENT COLOR CONTROLLER

**LED Controller**

- **MODE**: Short press: Cycle through (33) available modes.
- **SET**: Short press: Edit current scene.*
  - Once edit is complete, short press to save the current setting.
  - *When editing single color scene, short press to increase the brightness.
  - *When editing Holiday, or Celebration scenes, short press to increase the speed of the scene.
- **UP**: Short press: Cycle mode up by one.
  - *When editing single color scene, this will decrease the brightness.
  - *When editing Holiday, or Celebration scenes, short press to decrease the speed of the scene.
- **DOWN**: Short press: Cycle mode down by one.
  - *When editing single color scene, short press to save the current setting.
  - *When editing Holiday, or Celebration scenes, short press to decrease the speed of the scene.

**POWER**
- Turn power On/Off
- Stops current Holiday, or Celebration mode

**MODE**
- Short press: Cycle mode up by one.
- Short press: Cycle mode down by one.

**SPEED**
- Hold to increase the speed of the current scene.
- Hold to decrease the speed of the current scene.

**BRT**
- Hold to increase the brightness of the current static color.
- Hold to decrease the brightness of the current static color.
